BAKING SODA SHOWDOWN

— The Outdoors —

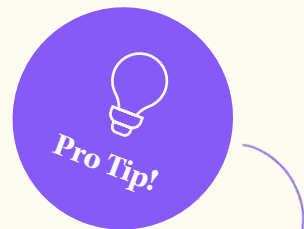

Operation: Outdoors

They're called "The Great Outdoors" for a reason! With warmer weather on the horizon, our outdoor spaces are in desperate need of some quality cleaning. It's the final week, so choose your challenges and prepare your outdoor space for summer sunshine.

GUNK-GETTER SLIME

The magical cleaner for cracks and crevices around the home.

ADD FOOD COLORING FOR A BRIGHTER SHADE OF SLIME!

Directions

1. In a bowl, thoroughly mix together the 1 tablespoon ARM & HAMMER™ Baking Soda and 4-6 oz glue.
2. Add a few drops of contact solution at a time and mix.
3. When you roll it around the bowl and it starts picking up its own bits to create one blob, you're pretty much there. If it's too thick, add a few drops of water.

4. Knead it for a minute.
5. Once your slime has come together, slide it into hard-to-reach spots such as: your car's cup holders, air vents and dashboard, window sills, or door jambs and hinges.

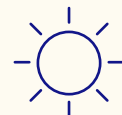

Ingredients

- 1 tablespoon ARM & HAMMER™ Baking Soda
- 1 tablespoon contact lens solution
- 4-6 ounces multi-purpose glue
